

02/23/2012 15:23

Reads

- Take rev?

Writes

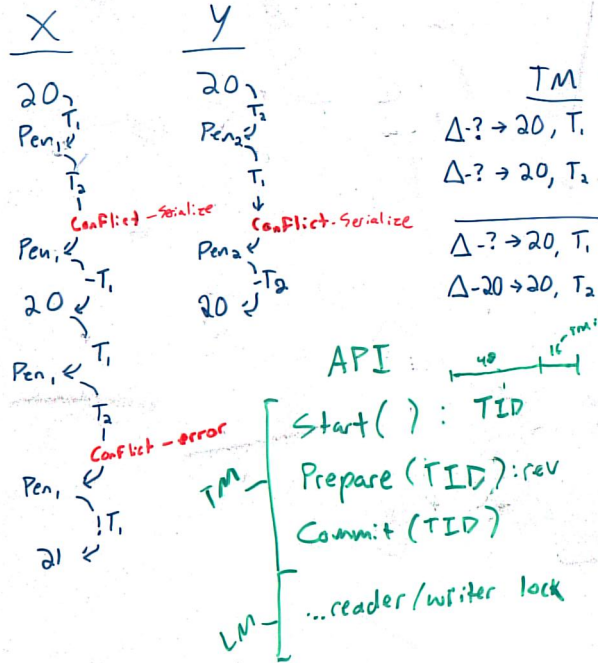

- when rev taken (span vs. ind)
- giving recorded reads

Rev

2 Modes

- Transaction - No auto retry - fail conflict
- Batch - auto retry

- Can warn explicit tx reads if pen or newer
- Apply pending changes, roll-back for other tx

TM - 20

$\Delta \rightarrow 20, T_1$
